PROBLEMS FACED BY PEOPLE

“
It is estimated that over 12,000 persons die every day in India due to non-availability of blood. One of the major factors for the shortfall is lack of awareness and prevalence of myths about blood donation.

BLOOD FACT

- According to WHO , road traffic injuries caused an estimated **1.24 million (12,40,000) deaths** worldwide in 2010 with maximum deaths due to shortage of the blood.
- It can take up to **50 blood donors** to help one car crash victim

INDIA NEEDS MORE BLOOD DONORS

13.4 mn units blood required | 11.45 mn units collected in 2017-18

Year	Units (mn)
012-13	9.8
013-14	9.949
014-15	10.838
015-16	10.90
016-17	11.09
017-18	11.45

How long can blood components stored(in days)

Whole blood	35
Red blood cells	35
Red blood cells with additives	35
Platelets	5
Fresma	365

2,760
No. of blood banks in India

1 pint (473 ml)
of blood can save 3 lives

MYTHS THAT KEEP ONE FROM DONATING BLOOD

Myth#1
IT CAUSES FATIGUE

Reality: Donors are given refreshments soon after. One can resume work after an hour

Myth#2
IT REDUCES BLOOD IN THE BODY

Reality: Around one pint is taken. An adult has 8-12 pints of blood

Myth#3
BLOOD DONATION IS A PAINFUL PROCESS

Reality: Only pain is of the needle pricking the skin

PROBLEMS FACED BY PEOPLE

“
MEDICAL ERROR
Lack of knowledge regarding different symptoms which requires different treatment diseases and different precautionary measures.
”

5.2 million medical errors occur in India annually. This problem is not limited to India but also in outside countries

MEDICAL ERROR THIRD LARGEST KILLER IN US

Globally an estimated 1,42,000 people died in 2013 from adverse effects of medical treatment

A Harvard University study earlier estimated **43 million** medical injuries occurred globally and **5.2 million** in India

TOP CAUSES OF DEATH IN THE US MENTIONED BY BMJ

- | | | |
|---------------|---------|----------------|
| | | |
| Heart Disease | Cancer | Medical Errors |
| | | |
| COPD | Suicide | Firearms |
| | | Motor Vehicles |

LEADING CAUSES OF DEATH IN INDIA

HEART DISEASE | COPD | STROKE | TUBERCULOSIS | PNEUMONIA | SUICIDE | ROAD INJURIES | DIABETES

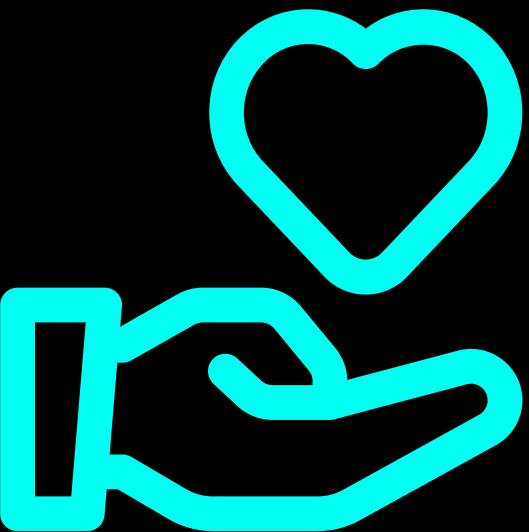

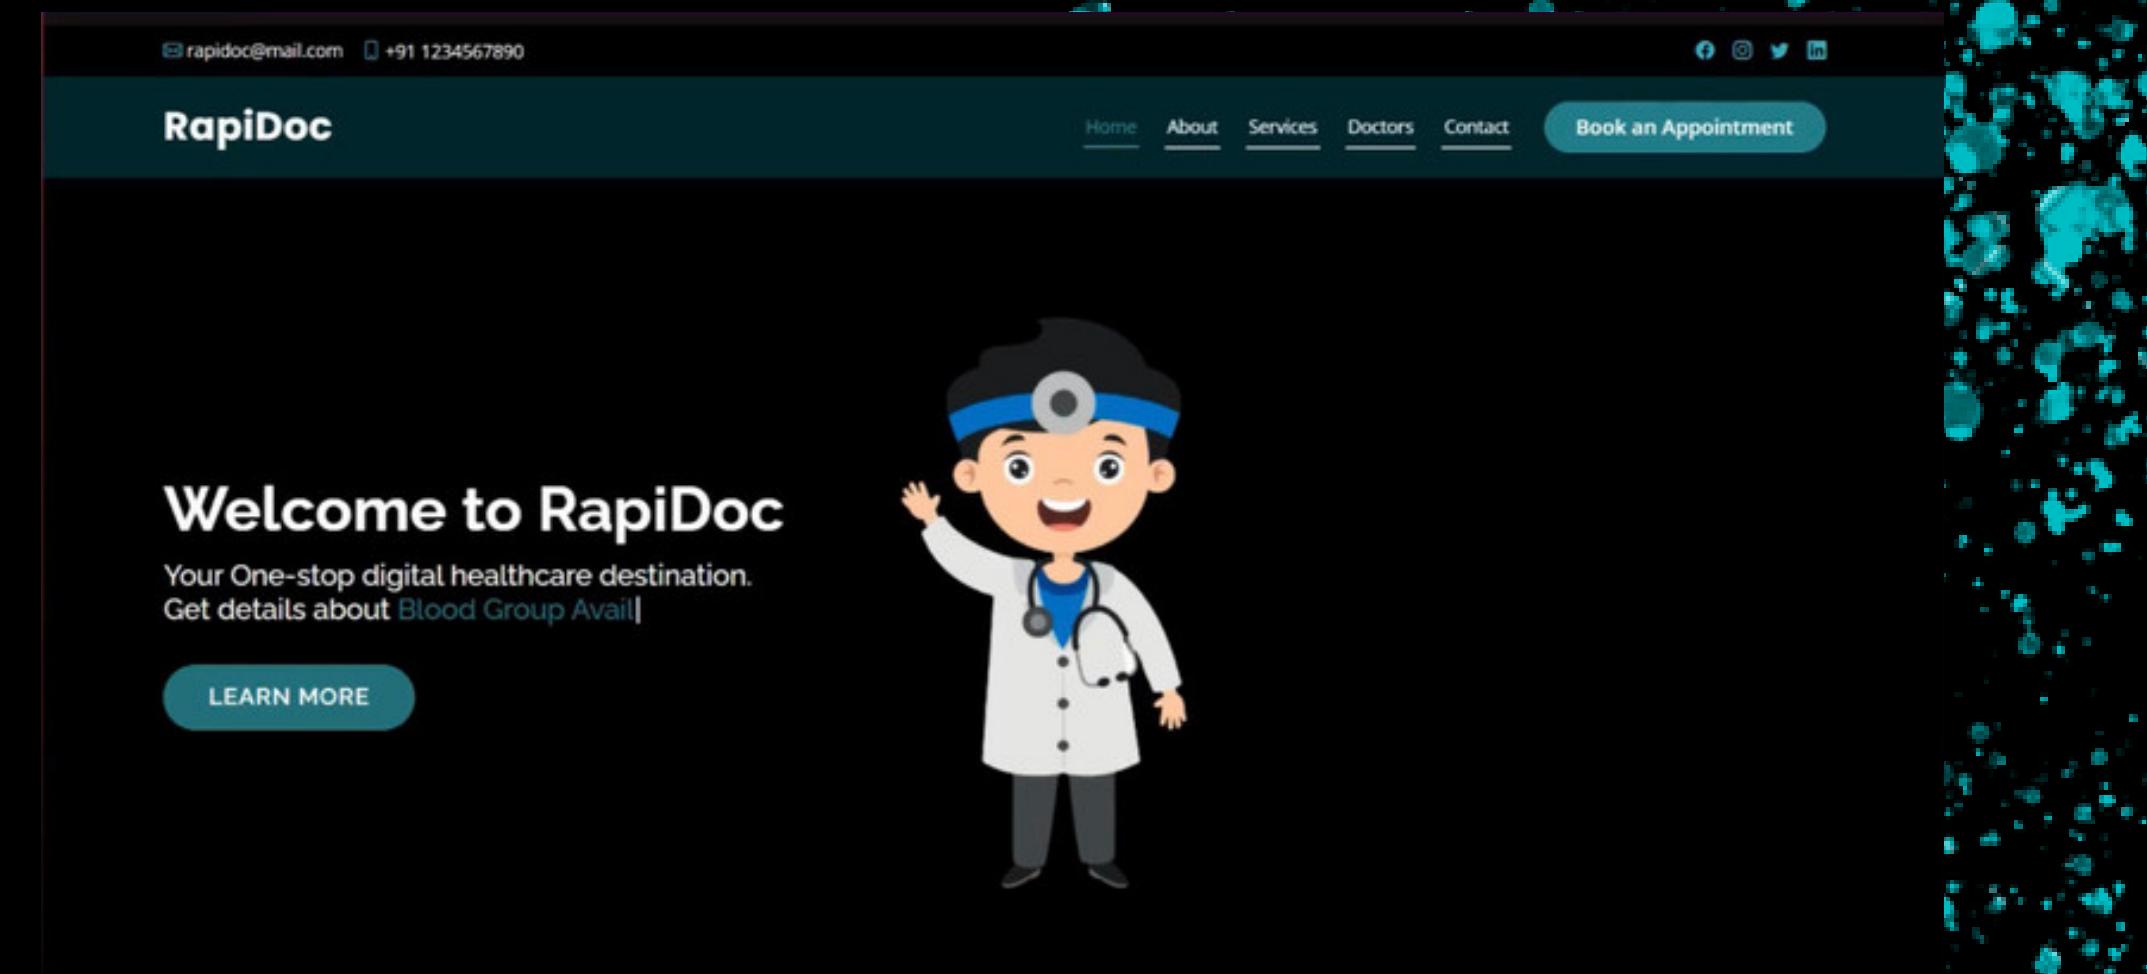

WHY? RAPIDOC

Rapidoc is an online platform which enables users to get quick access to information regarding health care facilities and much more. Its aims to improve access to quality healthcare and addressing health-related challenges. It promotes betterment of society. This idea is being thought of in order to help suffering patients.

RAPIDOC: PRIMARY FEATURES

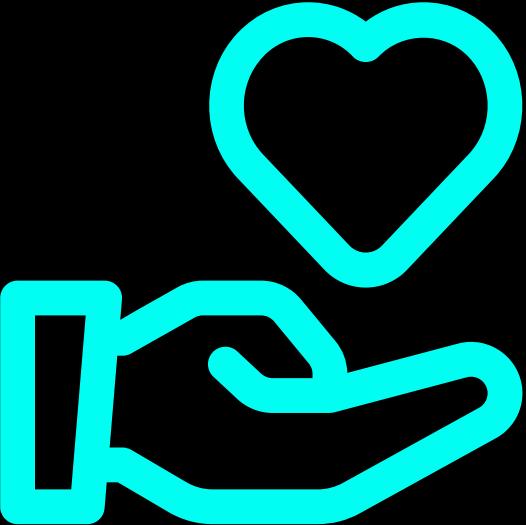

RAPIDOC provides:

- a digital check-in service allowing patients to submit medical forms before appointments
- virtual care services
- patient surveys/reviews/feedbacks

WHAT QUICK INFO DO WE PROVIDE?

- Availability of beds, hospitals, path labs around the user within a radius of 5km
- Blood banks near the user
- User reviews to increase credibility
